* Initial review fee must be received by Weber Basin Water Conservancy District (District) with each drawing submission and is nonrefundable. The initial review fee will cover only the cost of a single drawing review and does not cover the cost associated with future reviews, purchasing or allocating water, license agreements as may be required, inspection fees, and/or any other fees as may be required by the District. The District may assess, at its sole discretion, additional review fees based on actual hours required for the review, which will be billed at a rate of \$100/hour. If review fees have been waived, please provide copy of District correspondence documenting the waiving of fees with your submission.

** All written correspondence pertaining to the approval of drawings will be sent via U.S. Mail to the Developer (no exceptions). You may request that electronic *copies* of written correspondence be provided (via facsimile or e-mail) if you wish to expedite your receipt of correspondence, or if you wish for others to receive a copy. Enclosures will not be provided electronically. Please allow two to four weeks for review.
